

MATH MAGIC VOCABULARY CARDS™

Turn patterns into understanding.

What These Are

The Math Magic Vocabulary Cards™ are designed to help students **understand what they're seeing** when they use the Multimagic Table™.

They go beyond definitions.

They help students connect:

- what they see
- to what it means
- to how it works

Why They Matter

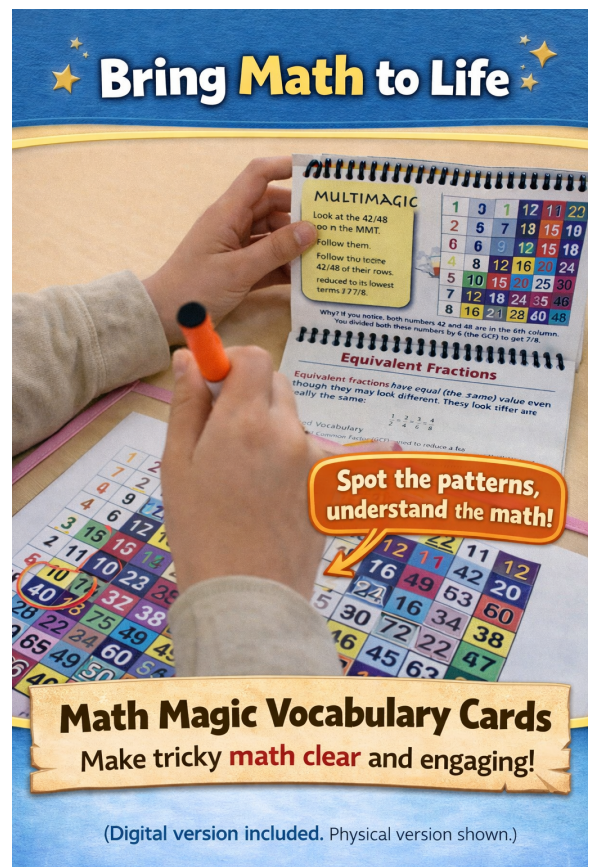

Seeing patterns is powerful.

But understanding those patterns?
That's where real learning happens.

These cards help students move from:

- memorizing → making sense
- guessing → explaining
- confusion → clarity

How Teachers Use Them

Simple and flexible:

- Project them during instruction
- Use them to introduce or reinforce concepts
- Connect them directly to the Multimagic Table™
- Let students explain what they notice

No complicated setup.

No extra prep.

✨ What Students Experience

Students begin to:

- recognize patterns with confidence
- use math language naturally
- explain their thinking more clearly
- engage more because it makes sense

Who This Is For

- Grades 2–8 classrooms
- Students who struggle with “why” in math
- Teachers who want deeper understanding—not just correct answers

How It Fits

The Multimagic Table™ helps students **see the pattern**

The Vocabulary Cards help them **understand the pattern**

Together, they create the moment:

“Ohhhh... I get it.”

What You Get

- Instant digital download
- Ready to project or print
- Easy to use on any device

Bring Clarity to Your Classroom

Use alongside the Multimagic Table™ to help students not just do math—
...but understand it.
