

🟡 MULTIMAGIC TABLE™ STUDENT EDITION

A personal pattern tool for daily understanding.

👉 What This Is

The Multimagic Table™ Student Edition is a student-sized version of the classroom poster—designed for **hands-on use**.

Students don't just look at it.
They interact with it.

They trace.
They circle.
They begin to see how math works.

👉 Why It Matters

Many students lose confidence in math because they can't *hold onto* what they're learning.

This gives them a way to:

- see patterns up close
- revisit them anytime
- build understanding through use

👉 How Students Use It

Simple, active learning:

- Trace patterns with their finger or marker

Multimagic Table™
- Student Edition
Brain-Ready Pattern Guide

- Circle what repeats
- Follow number relationships
- Use it during practice, homework, or intervention

✨ What Students Experience

Students begin to:

- recognize patterns independently
- feel more confident trying problems
- stay engaged longer
- say, “Wait... I see it.”

Who This Is For

- Students in Grades 2–8
- Learners who need hands-on support
- Students who benefit from visual + kinesthetic learning
- Classrooms, tutoring, and home use

🔗 How It Fits

The Classroom Poster introduces the pattern
The Student Edition puts it in their hands

Together, they move students from:

👉 watching

to

👉 doing

to

👉 understanding

What You Get

- 8.5 x 11 student-friendly format
- Designed for tracing and repeated use
- Ideal with a sleeve or laminate

 **Put the Pattern in Their Hands**

Give students a tool they can use every day—
to see, practice, and understand math.
